1.9 **Nonconforming Uses.** Within the districts established by this Ordinance or amendments that may later be adopted, there exist lots, structures, and uses of land and structures which were lawful before this Ordinance was passed or amended but which would be prohibited, regulated or restricted under the terms of this Ordinance or future amendment.

Subject to Section 1.6, it is the intent of this Ordinance to permit these non conformities to continue until they are removed but not to encourage their survival. Such uses are declared by this Ordinance to be incompatible with permitted uses in the districts involved. It is further the intent of this Ordinance that nonconformities shall not be enlarged upon, expanded or extended, nor be used as grounds for adding other structures or uses prohibited elsewhere in the same district.

A nonconforming use of a structure, a nonconforming use of land, or a nonconforming use of a structure and land shall not be extended or enlarged after passage of this Ordinance by attachment on a building or premises of additional signs intended to be seen from off the premises, or by the addition of other uses of a nature which would be prohibited generally in the district involved.

To avoid undue hardship, nothing in this Ordinance shall be deemed to require a change in the plans, construction or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this ordinance and upon which actual building construction has been diligently carried on. Actual construction is hereby defined to include the placing of construction materials on permanent position and fastened in a permanent manner, except that where demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such demolition or removal shall be deemed to be actual construction, provided that work shall be diligently carried on until completion of the building involved.

1.10 **Nonconforming Lots of Record.** In any district in which single-family dwellings are permitted, notwithstanding limitations imposed by other provisions of this Ordinance, a single-family dwelling and customary accessory buildings may be erected on any single lot of record at the effective date of adoption or amendment of this Ordinance. Such lot must be in separate ownership and not of continuous frontage with other lots in the same ownership. This provision shall apply even though such lot fails to meet the requirements for area or width or both that are generally applicable in the district, provided that yard dimensions and other requirements not involving area or width or both, of the lot shall conform to the regulations for the district in which such lot is located. Variance

of area, width, and yard requirements shall be obtained only through action of the Board of Adjustment.

If two or more lots or combinations of lots and portions of lots with continuous frontage in single ownership are of record at the time of passage or amendment of this Ordinance, and of all or part of the lots do not meet the requirements for lot width and area as established by the Ordinance, the land involved shall be considered to be an undivided parcel for the purposes of this Ordinance, and no portion of said parcel shall be used or sold which does not meet lot width and area requirements established by the Ordinance, nor shall any division of the parcel be made which leaves remaining any lot with width or area below the requirements stated in this Ordinance.

1.11 **Nonconforming Uses of Land.** Where, at the effective date of adoption or amendment of this Ordinance, lawful use of land exists that is made no longer permissible under the terms of this Ordinance as enacted or amended, such use may be continued, so long as it remains otherwise lawful, subject to the following provisions:

1. No such nonconforming use shall be enlarged or increased nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Ordinance.
2. No such nonconforming use shall be moved in whole or in part to any other portion of the lot or parcel occupied by such use at the effective date of adoption or amendment of this Ordinance.
3. If any such nonconforming use of land ceases for any reason for a period of more than one (1) year, any subsequent use of such land shall conform to the regulations specified by this Ordinance for the district in which such land is located.

1.12 **Nonconforming Structures.** Where a lawful structure exists at the effective date of adoption or amendment of this Ordinance that could not be built under the terms of this Ordinance by reason of restrictions on area, lot coverage, height, yards, or other characteristics of the structure or its location on the lot, such structure may be continued as long as it remains otherwise lawful, subject to the following provisions:

1. No such structure may be enlarged or altered in a way which increases its nonconformity.
2. Should such structure be destroyed by any means to an extent of more than 50 percent of its replacement cost at the time of destruction, it shall not be reconstructed except in conformity with the provisions of this Ordinance.

1.13 **Nonconforming Uses of Structures.** If a lawful use of a structure, or of structure and premises in combination, exists at the effective date of adoption or amendment of this Ordinance, that would not be allowed in the district under the terms of this Ordinance, the lawful use may be continued so long as it remains otherwise lawful subject to the following provisions:

1. No existing structure devoted to a use not permitted by this Ordinance in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located.
2. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Ordinance, but no such use shall be extended to occupy any land outside such building.
3. If no structural alterations are made, any nonconforming use of a structure or structure and premises may be changed to another nonconforming use provided that the Board of Adjustment, either by general rule or by making findings in the specific case, shall find that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change, the Board of Adjustment may require appropriate conditions and safeguards in accord with the provisions of this Ordinance.
4. Any structure or structure and land in combination in or on which an nonconforming use is superseded by a permitted use shall thereafter conform to the regulations for the district in which such structure is located, and the nonconforming use may not thereafter be resumed.
5. When a nonconforming use of structure or structure and premises in combination is discontinued for six (6) consecutive months or for eighteen (18) months during any three-year period, the structure thereafter shall not be used except in conformance with the regulations of the district in which it is located.
6. Where nonconforming use status applies to a structure and premises in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land.

1.14 **Repairs and Maintenance.** On any building devoted in whole or in part to any nonconforming use, work may be done in any period of twelve (12) consecutive months on ordinary repairs, or on repair or replacement of nonbearing walls, fixtures, wiring or plumbing, to an extent not exceeding ten (10) percent of the current replacement value of the building provided that the cubic content of the building as it existed at the time of passage or amendment of this Ordinance shall not be increased.

Nothing in this Ordinance shall be deemed to prevent the strengthening of or restoring to a safe condition of any building or part thereof declared to be unsafe

by any official charged with protecting the public safety, upon order of such official.

1.15 **Uses Under Exception Provisions Not Nonconforming Uses.** Any use for which a special exception is permitted as provided in this Ordinance shall not be deemed a nonconforming use but shall, without further action, be deemed a conforming use in such district.

1.16 **Flood Hazard Area Regulations.** It is the intent of the flood hazard area regulations to limit development in the flood hazard area in order to minimize the danger to life and property which results from development undertaken without full realization of such danger. It is further the intent of these regulations to protect the flood hazard area from encroachments or developments which would obstruct, contain, or divert the passage of flood waters.

1. **Application.** The flood hazard area overlies various zoning districts. Where such overlapping occurs, uses and structures in the underlying zoning district shall be permitted only when the additional requirements imposed by the flood hazard area regulations have been met.

Existing uses and structures located in the flood hazard area prior to the adoption of this ordinance which are not in compliance with the flood hazard area regulations shall be deemed nonconformities.

2. **Interpretation.** The flood hazard area encompasses those areas subject to inundation by flood waters which can be expected to occur a frequency of once in 100 years.

A record of all certificates shall be kept on file in the Administrator's office, and copies shall be furnished upon request to any person having a tenancy interest.

A variance from the terms of this Ordinance shall not be granted by the Board of Adjustment unless and until;

d) The Board of Adjustment shall make findings that the requirements of Section 2.13.3-a have been met by the applicant for a variance.

e) The Board of Adjustment shall further make a finding that the reasons set forth in the application justify the granting of the variance, and that the variance is the minimum variance that will make possible the reasonable use of the land, building or structure.

f) The Board of Adjustment shall further make a finding that the granting of the variance will be in harmony with the general purpose and intent of this Ordinance, and will not be injurious to the neighborhood, or otherwise detrimental to the public welfare.

In granting any variance, the Board of Adjustment may prescribe appropriate conditions and safeguards in conformity with this Ordinance. Violation of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of this Ordinance and punishable under Section 2.4 of this Ordinance.

- 2.14 **Decisions of the Board of Adjustment.** In exercising the above mentioned powers, the Board of Adjustment may, so long as such action is in conformity with the terms of this Ordinance, reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination as ought to be made and to that end shall have powers of the Administrative Officer from whom the appeal is taken. The concurring vote of four members of the Board shall be necessary to reverse any order, requirement, decision determination of the Administrative Officer, or to decide in favor of the applicant on any matter upon which it is required to pass under this Ordinance, or to effect any variation in application of this Ordinance.
